RESPONSE A

Sir:

In response to the Examiner's restriction requirement dated 06/14/2005, Applicant elects to prosecute claims 1-12 and 38-44, and cancel claims 13-37 and 45-74 with traverse. In response to the Examiner's election requirement, Applicant elects, without traverse, the species II (i) (1) of Group I, should no generic claim be finally held allowable.

Applicant traverses the restriction requirement on the grounds that the Examiner must examine the entire application if the search and examination can be made without serious burden. (MPEP § 803). Applicant's claims are directed to a method and a display system having structures which operate to carry out the method. The functionality in the display system claims, which distinguishes them

from the prior art, is greatly reflected in the method claims. As such, a search and examination for the claims in each of the Examiners groups I and II are likely to yield significantly overlapping results.

Respectfully submitted,
Daryl E. Anderson
